

CYTHENTIC PARTNERS

Proven peace of mind, for the people you serve.

Your members and customers are already targets. Knowing about a risk is only the beginning. We help your members take practical steps to reduce it. Partner with Cythentic and we bring a ready-to-run workshop, a free Personal Cyber Score for every attendee, and a step-by-step plan that closes the doors attackers actually use. You bring the audience.

Who it is for

Chambers of commerce

Owners and solopreneurs who run their own IT because nobody else will.

Business associations

Members who handle client data, invoices and payments every day, usually without a security team.

Accelerators and university programs

Founders building fast, with the company bank account one phishing email away.

We also run it for community banks and credit unions, schools and parent groups, senior centers, and HR and benefits teams.

What we bring

Cybersecurity for Small Businesses

Close Your Doors workshop · 45 minutes

- Attendees bring a phone or laptop and take their free Personal Cyber Score in the room
- Corey walks them through the few doors that matter most, and they close the first ones before they leave
- Everyone leaves with a step-by-step plan for the rest
- Free to host, and free for every attendee

Best for chambers, associations, accelerators, banks and credit unions

Proven Peace of Mind

Keynote or session · 30 to 60 minutes

- Why monitoring alone is not protection, told with real stories
- The doors attackers use to get into a small business or a home
- How to close them step by step, and prove each one is done
- A paid engagement, quoted on the partner call

Best for conferences, member events, lunch-and-learns

Free Personal Cyber Scores

For every member · about 3 minutes

- A link set up just for your members, so every score is counted to your channel
- No card and no Social Security number to take it
- Their answers show the likely gaps and what to fix first, and the first fix is free
- After that, Remi is an optional subscription. Nobody is asked for a card in the room

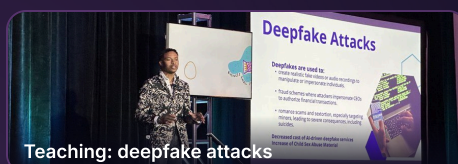

Best as a member benefit, with or without an event

Newsletter and content swap

Not an Easy Target · weekly

- We feature your organization in our weekly security newsletter
- You share one of our plain-English security lessons with your list
- Ready-made articles your members will actually read

Best for organizations with an active member email

What we ask in return

Invite your members

One member email and one social post from the partner pack we send you, so the room fills.

Swap an email

We each introduce the other to our community.

Host the room or the link

Your venue, your member meeting, or your webinar link. We handle everything that happens in it.

Tell us how it went

Two minutes of honest feedback after the session, and a quote if your members got value from it.

How it works

1

Book a partner call

Thirty minutes to learn who you serve and pick from the menu.

[Pick a time on Corey's calendar →](#)

2

We set it up

Your tracked score link, the date, and the partner pack with your name already in it.

3

Your members take action

They take their score, close their first doors, and leave with a plan.

[Try the free score →](#)

After the session: you get a summary of how many of your members took the score, finished it, and closed their first fix. Never names, emails or answers. Attendees hear from us only if they create a Remi account or ask us to.

What "proven" means: a door counts as closed when your member finishes its guided steps and confirms each one, and their score re-measures right then. Example: turn on two-step login for the business bank account, confirm it, and watch the score move. Consulting clients also get technical verification.

The partner pack

Once we have talked and agreed a date, we send you the partner pack: a member email, social posts and a speaker bio, already filled in with your organization's name, date and tracked link. Ask for it and Corey sends it to you directly.

[Send me the partner pack →](#)

Get peace of mind with Corey

Free 30-minute call. You leave knowing whether there is a fit, and what your members would get.
